| AAA Batteries × 2 | (ST4 × 12F) × 4 (32") | (ST4 × 14F) × 4 (40") |
Installing the Stand

**NOTES**

- The TV screen is very fragile, and must be protected at all times when removing the base stand. Be sure that no hard or sharp object, or anything that could scratch or damage the screen, come into contact with it. DO NOT exert pressure on the front of the TV at any time because the screen could crack.
- For tabletop use, the TV must be attached to the provided stand as shown on this page.
- Product images are only for reference, actual product may vary in appearance.

**WARNING**

Be sure to disconnect the AC power cord before installing a stand or wall-mount brackets.

**CAUTION**

Carefully place your TV facedown on a soft, cushioned surface to prevent damage to the TV or scratching to the screen.

Follow the illustrations and textual instructions below to complete the installation steps:

1. Attach the stand to the TV set as shown in the picture.
2. Use the screws (ST4 × 12F) × 4 (32”), (ST4 × 14F) × 4 (40”) to fix the stand tightly.
WALL-MOUNT BRACKET

If you need to use the Wall-mount Bracket, please refer to the below information.

| Wall-Mount hole pattern (mm) | 200×100(32")  
|                             | 200×200(40")  |
| Wall-Mount screw size (mm)  | M6   |
**TV Front**

**Item** | **Description**
---|---
**Remote sensor** | Receive remote signals from the remote control. Do not put anything near the sensor, as its function may be affected.

**Remote Indicator** | Red light up in standby mode. Blue light up in power on mode.

**STANDBY/SOURCE** | Press for a few seconds to turn on the TV or put the TV in standby mode. / Touch to select among the different signal sources.

**NOTES**
- The Picture is Only for Reference.
- Powering up or down the TV requires several seconds of processing time. Do not rapidly turn the TV on / off as abnormal operation may occur.
TV Rear & Making Connections

TV Rear

NOTES

• The Picture is Only for Reference.

HEADPHONE

Connect Headphone for audio out of the TV.
The built-in speakers will be disabled once the headphone is connected.

TV JACK

(not included)
Making Connections

**HDMI/COMP/AV**
Connect a HDMI / Comp / AV cable from an external A/V equipment. No sound connection is needed for HDMI to HDMI connection. If the signal resolution does not match the specification table, you need to change the setting of device according to the table. Please consult your device user manual for instruction.

- To select the HDMI / Component / AV

  ![HDMI/COMP/AV Connection Diagram](image)

  **Video Effect:**
  - **BEST(HDMI)**
  - **BETTER(COMP)**
  - **GOOD(AV)**

**VGA & AUDIO**
Connect a VGA cable and an audio cable from the PC.
Press [Source] button, when the list of Input Source appears, press [▲/▼] to select the source [PC], then press [OK] to connect.

![VGA & AUDIO Connection Diagram](image)
**OPTICAL**  Connect an optical cable from an external digital audio system

Optical S/PDIF—is a type of digital audio interconnect cable used in consumer audio equipment to output audio over reasonably short distances. The signal is transmitted over a fibre optical cable.

Before connecting a digital audio system to the OPTICAL jack, you should decrease the volume of both the TV and the system to avoid that the volume suddenly become bigger.

![Diagram of optical connection](image)

**ANT**  Connect an outdoor VHF/UHF antenna or cable.

![Diagram of antenna connection](image)

**USB**  Connect the USB devices such as hard drives, USB sticks or digital cameras for browsing photos, listening music and watching recorded movies. You can record live TV program (refer to PVR in user Manual). At the same time firmware update is also an easy thing and can be done just by plugging the USB with the update files into the USB interface.

![Diagram of USB connection](image)
# NOTES

- When connecting a hard disk or a USB hub, always connect the mains adapter of the connected device to the power supply. Exceeding a total current consumption may result in damage. The maximum current consumption is 500mA.
- For individual non-standard high-capacity mobile hard disk, if it's impulse current is greater than or equal 500mA, it may cause TV-rebooting or self-locking. So the TV does not support it.
- The USB port supports a voltage of 5V.
- The maximum supported storage space of the hard disk is 1T.
- If you want to store the video streaming of a DTV program, the transfer rate of the USB storage device must not be less than 5MB/s. At least a mobile storage with more than 20G is required to Timeshift and record a 2.5 hour HD video.

---

### ARC

Connect an HDMI cable from an external digital audio system.

ARC enables the TV to directly output the digital sound through an HDMI cable. Please note that it works only when the TV is connected to the audio receiver that supports the ARC (Audio Return Channel) function. When this port is used as the ARC function, it can't be used as signal input at the same time.
Remote Control

- Power button
- Remote sensing Window
- Available source selection
- Zoom image
- Mute the sound
- Set the sleep time
- Select Audio language
- Display the subtitle content of the signal
- Fast access to your saved favorite programs
- Red, Green, Yellow and Blue are used in media mode
- Exit: Exit all menu display

Switch to DTV Radio program
Analog / Digital TV Start video recorder
Select USB-Digital Media player mode
Mono/Stereo operation, Audio select button

Display the main menu/ Back menu display
Display informations
Channel Up/ Channel Down
Sound mode selecting

Freeze picture
Time shift in DTV Mode
Video recorder list

1,2,... numbers: For direct channel access
To return to the last view program
Text, Size, Reveal, Hold, Index, Subpage (refer to teletext function)
Play/ Pause, Stop, etc. are used in media mode
Installing Batteries in the Remote Control

1. Slide the back cover to open the battery compartment of the remote control.
2. Insert two AAA size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment.
3. Close the battery compartment cover.

1. Gently push and slide  
2. Insert the batteries  
3. Gently push and slide

NOTES

- Product image is only for reference, actual product may vary in appearance.
- Dispose of your batteries in a designated disposal area. Do not throw the batteries into a fire.
- Do not mix battery types or combine used batteries with new ones.
- Remove depleted batteries immediately to prevent battery acid from leaking into the battery compartment.
- If you do not intend to use the remote control for a long time, remove the batteries.
- Batteries should not be exposed to excessive heat, such as sunshine, heat registers, or fire.
- Battery chemicals can cause a rash. If the batteries leak, clean the battery compartment with a cloth. If chemicals touch your skin, wash immediately.

Remote Control Operation Range

1. Point the remote control at the TV within no more than 5 metres from the remote control sensor on the TV and within 60° in front of the TV.
2. The operating distance may vary depending on the brightness of the room.
Turning the TV on for the First Time

1. Connect the mains cable to the mains socket after you have completed all the connections.

2. Switch on \( \mathcal{O} \) at the bottom of the TV.

3. The first time you turn the TV on, it will go straight into the Installation Guide. It will assist you to specify the OSD Language, Mode Setting, Country, Tuner Type, Auto Scan, LCN, Auto Channel Update.

   **NOTE**
   
   - Always disconnect the TV from the mains socket when it is not in use for a long period of time. To completely disconnect the mains power, please remove the mains plug from the mains socket or switch off the power switch.

4. Press the \([\uparrow/\downarrow/\leftarrow/\rightarrow]\) buttons to navigate the menu and change the settings.

<table>
<thead>
<tr>
<th><strong>OSD Language</strong></th>
<th>Select your desired language to be displayed on the menu.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Mode Setting</strong></td>
<td>Select your Mode Setting: Store Mode and Home Mode. Store Mode: Optimizes the picture for store environments. Home Mode: Recommended mode for the home use and low power consumption. Please note that Use settings are not saved after switching off the TV when you select Shop Mode.</td>
</tr>
<tr>
<td><strong>Country</strong></td>
<td>Select the country where you will operate the TV.</td>
